When it comes to Merlot selection - quality is the name of the game. Careful vineyard block choice is followed by meticulous grape selection in the vineyards and on the sorting table. The grapes undergo a maceration of 3 - 4 days before inoculation with yeast. Fermentation is followed by another 3 weeks on the skins. Before going into barrel, a final wine selection ensures that only the highest quality wine ends up in the bottle.

Wood maturation: 10% new oak barrels, 70% second fill barrels, 20% older fill barrels- French Oak only
